Address: Sachsenring 60
94315 Straubing
Germany

Testing location: As above

Address: As above

confirm that basic model: Electro Voice ETX-15P

(Complete model-no.)

(EMC-, LVD and/or RTTE-DOC-Ref.-No.)

which has been tested by: EVI Audio GmbH

and multi-listing model: ETX-35P

(Complete model-no.)

Electro Voice

(Brand)

Company to be shown on DOC.....: Bosch Sicherheitssysteme GmbH

85630 Grasbrunn

Germany

are electrical, electronical and mechanical 100% identical:

Basic-model and multi-listing-model are not fully identical:

The differences are as follows:

ETX-35P uses a mid frequency loudspeaker and a high frequency horn driver (separated by additional passive crossover), while basic model ETX-15P uses only a high frequency horn driver. Woofer and amp module are identical.

ETX-35P uses a bigger enclosure compared to ETX-15P.
