

Digital Audio Matrix Manager

Controllers

DSP extension module for digital signal-processing matrix

- DSP extension module for doubling of DSP computing power of digital signal processor-matrix
- Extension of DSP computing power by 1500 MIPS
- 2 additional RAMs for realization of longer delay periods (up to 21.8s) or further delay lines
- Automatic module recognition

Technical data, hardware:

Sample rate	48 kHz
Data format	48 Bit processing
Computing power	1500 MIPS
Additional storage	2 x 512 x 24 Bit S-RAM
Dimensions (w x h x d)	(110 x 20 x 82.5) mm
weight	45 g

Product / Brand :

Electro-Voice or equivalent

Type:

DSP-2

Deliver and mount ready-for-use

Offered brand:

.....

Type:

.....
